## PROFESSIONAL DEVELOPMENT STRATEGY

MPHPL values the contribution that professional development brings to our daily operations and patron services. The Library supports employee participation in educational opportunities on a consistent basis.

### Internal Training

The Library holds in-service training on a quarterly basis. Staff are trained on new products and services and apprised of library matters in general. Some sessions provide staff the opportunity to earn LEUs.

Online training is provided through SirsiDynix, Homeless Training Institute, and free and paid webinars conducted by the Indiana State Library and other sources. Participation in these webinars are conducted on library work time.

### Professional Conferences

Staff are paid to attend professional conferences. Supervisors and librarians are expected to attend professional conferences. Non-supervisory staff are assigned participation by their supervisor.

### Certification Tracking

Employees are required to log their LEUs with their supervisor, who is responsible for monitoring certification expiration dates. Renewal of certificates are filed with the Human Resources office.

# TECHNOLOGY ASSESSMENT

MPHPL relies on technology to effectively serve our community. In 2020, MPHPL moved from the Sierra integrated library system (ILS) to SirsiDynix. The switch was well-received by both staff and patrons, as the Library is now able to customize functionality to better serve our patrons.

## New Products

In the last two years, MPHPL has expanded its digital products. Patrons now access music downloads and streaming through Freegal; Comic books and TV/movies are available through hoopla; Magazines and newspapers are provided through PressReader.

In 2022, MPHPL joined the Indiana Digital Library (IDL) Overdrive consortium. This has provided patrons with an increased variety of titles and shorter hold times.

MPHPL provides access to online databases through INSPIRE and the purchase of 16 popular databases including ABC Mouse, Ancestry, BrainFuse, Gale Legal Forms and Value Line.

## Network

The internet service provider (ISP) for the library is Surf Broadband. Surf Broadband provides 1 Gbps of bandwidth through a fiber-optic link at MPHPL’s main library. The Bittersweet and Harris branches are linked to the Mishawaka location by 1 Gbps of dedicated layer 2 transport.

All locations provide access to public wireless internet (Wi-Fi). The Wi-Fi service is provided by Network Solutions, Inc. (NSI) through multiple access points. The Mishawaka location has 16 access points, Bittersweet has 4, and Harris has 5. MPHPL is able to obtain usage statistics through our Meraki online administrative portal.

Our internal Firewall provides content filtering to ensure compliance with the Children’s Internet Protection Act (CIPA).
